## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Yamada et al is cited to show the first and second exhaust chambers 39 and 52 and the inverted u shaped pipe 49.

Yokoya is cited to show mufflers 40 and 70.

Matsuda is cited to show the valves of figures 7a and 7b.

Lecours is cited to show exhaust chambers 62 and 66 and inverted u-shaped pipes 70 and 76.

Japan 3290037 was cited by applicant within the specification.

Claim 1 and the claims depending therefrom are allowed in view of the limitations:

a first inverted-u shaped pipe

configured to extend from the first

exhaust chamber to the second exhaust chamber such that the exhaust gas drawn into the first exhaust chamber through the first exhaust pipe is drawn from the first exhaust chamber to the second exhaust chamber through the first inverted-u shaped pipe; **and**

a second inverted-u shaped pipe configured to extend from the second exhaust chamber to the first exhaust chamber such that the exhaust gas drawn into the second exhaust chamber through the first inverted-u shaped pipe is drawn from the second exhaust chamber into another one of the inner spaces of the first exhaust chamber through the second inverted-u shaped pipe.

None of the prior art of record taken alone or in combination teach or fairly suggest the first and second inverted u shaped pipes as defined above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
